CAPACIOUS AND CLEVER CAPTURING

Smart Lecture Capture System

Presenting the most advanced Smart Lecture Capture System, TrueCap. This advanced system makes it easy teach the students with live and on demand videos. This enables the educators to easily record their video courses and share with students in or outside the campus. With TrueCap it becomes very easy to capture, switch, record, stream and deliver video content to a wider audience, whether live or on demand. locally or remotely. This system combines a Video Station, Pick-Up Microphone, Auto-Tracking Cameras for both teacher and the student and Online Director Platform to provide the most flexible and effective lecture capturing.

- One-Touch Recording and Broadcasting.
- 6 Screen Layout Modes for various scenarios.
- Intelligent Panorama & Close-Up switch function.
- Supports Instant Image Positioning.
- Built-in Disk Recording Protection Strategy.
- Smooth and stable live broadcast service.
- Wear-Resistant Capacitive Touch Technology.

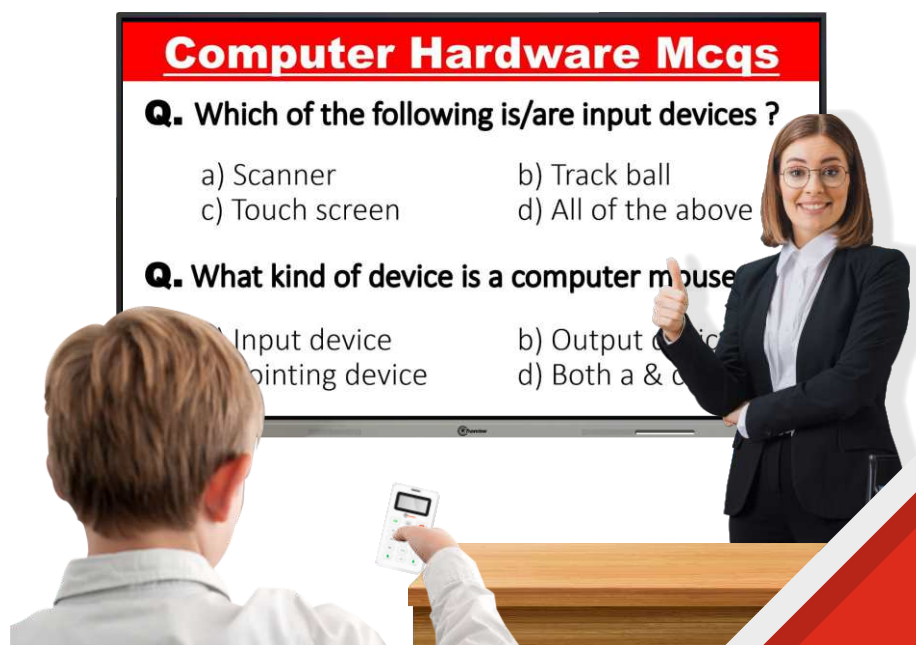

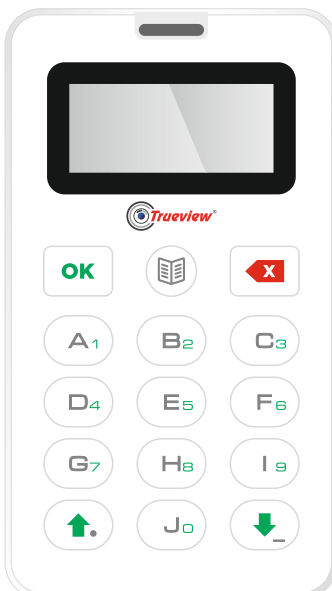

CREDIBLE AND COHERENT CONCLUSIONS.

Integrated Student Response System

With TrueClick at hand, students are no more passive listeners as before. Instead, they can now be active participants. TrueClick enhances the interactive learning in class by giving a voice to each and every student. With TrueClick Student Response System, you can engage the students with activities like instant quiz. Set different questions, seek answers and create answer reports easily. Create an interactive learning environment where every student can participate actively and give real-time feedback. With TrueClick, teachers can track progress through instant feedback to determine whether the students need reviewing, re-teaching or to continue with the next lesson.

- Engage Every Student
- Track Progress Easily
- Assess Student Understanding
- Transmit Widely & Stably
- No Installation Required
- Full Featured Software

MASTERFUL AND METICULOUS MANAGEMENT

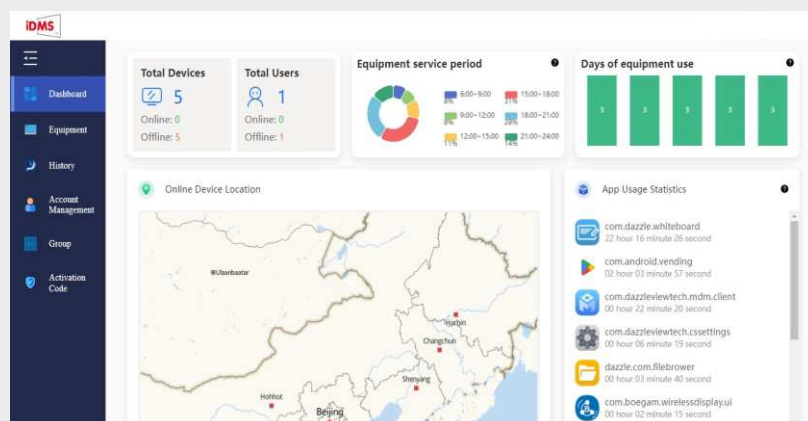

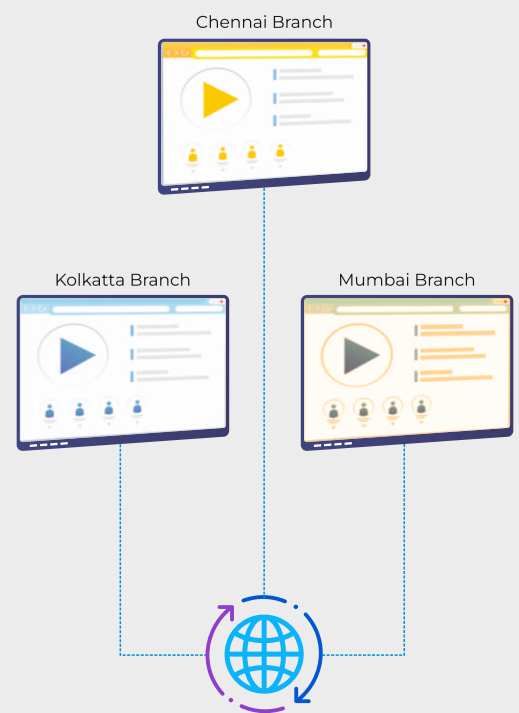

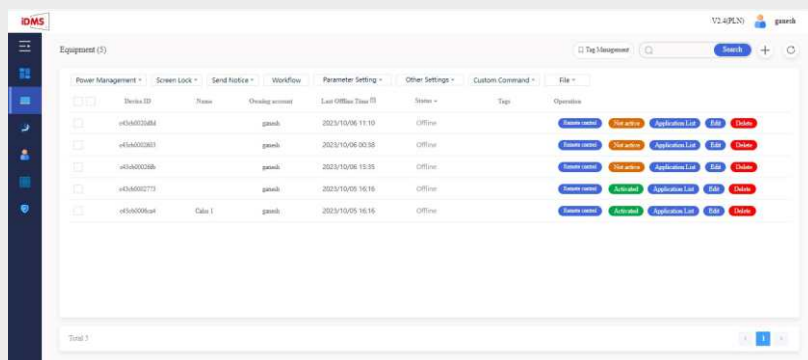

Interactive Device Management System

Trueview IDMS (Interactive Display Management System) is designed to centrally manage IFPDs remotely. With Trueview IDMS, you can efficiently manage your fleet of devices regardless of their locations, whether they are within your network or beyond. Interactive screens installed in classrooms, meeting rooms, and public locations require remote management. IDMS provides specialized device management designed specifically for overseeing devices in such settings. It offers a distinctive array of tools and interfaces for efficient management.

- Remote Real-time Screen Control / View / Screenshot
- Application Management - Enable / Disable / Run / Uninstall
- Adjust Parameters - Brightness, Volume, Source, Languages
- Power management - Turn On/Off, Restart, Display On/Off
- Screen Lock Management - Lock, Un-Lock, Set Screen Lock
- Device-level usage history and reports
- Send messages or alerts - Device specific, Set of devices or all

Remotely control your IFPD devices at various locations

Head Office (Eg. New Delhi)

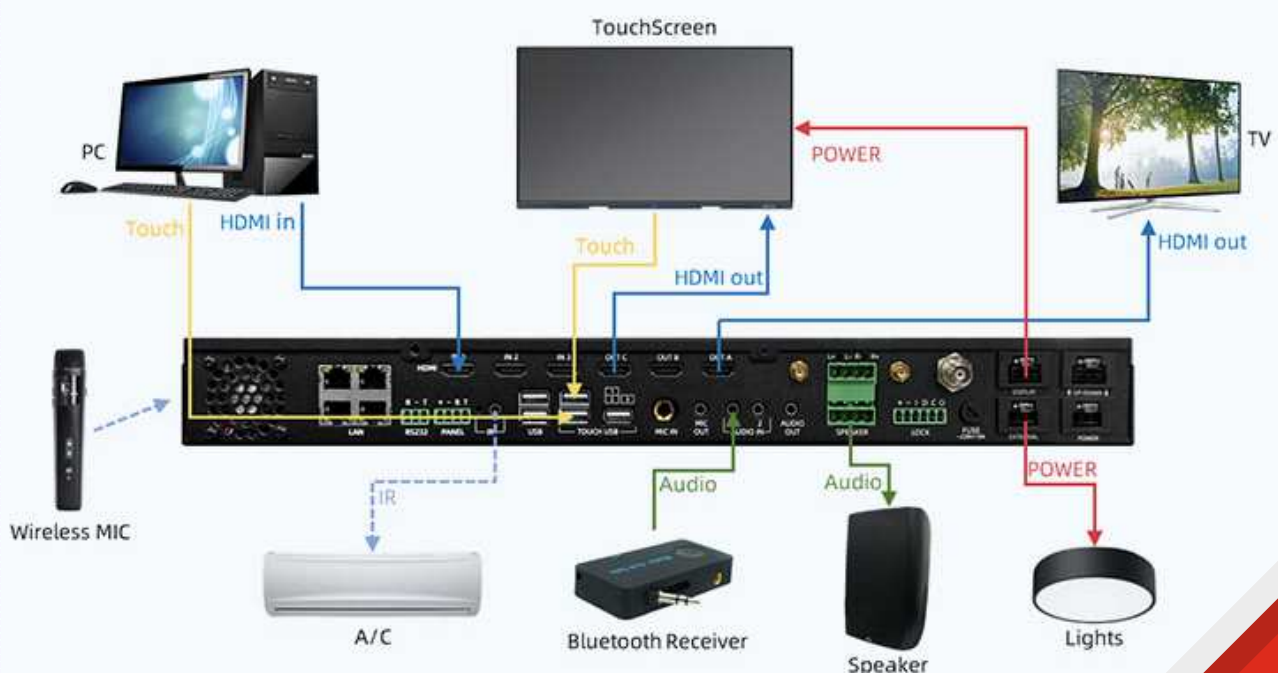

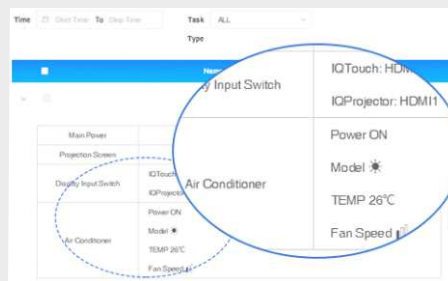

COMPLETE AND CENTRIC CONTROL

The classrooms and conference rooms are getting digitized on an extreme level with multiple devices and machines installed in a single facility. This surely is overwhelming for the teachers and presenters. However, very few of the users truly and completely enjoy the facilitation. TrueCS presents the most advanced System Control Solution that is designed to bring automation to such conference rooms or class rooms. This solution helps the user efficiently and easily manage all the devices with the added convenience of desktop touch panel control. Similarly, multiple rooms and its devices can also be centrally and remotely managed.

- Remote device control through the TrueCS App
- Schedule Power ON/OFF for devices like Display Panels, ACs, Lights etc.
- Live Audio - Video Broadcast to multiple rooms from control center.
- One Touch to Power On all devices in the smart room
- Smart AV Switching. View same or view different screens on dual screens
