CAPACIOUS AND CLEVER CAPTURING

Smart Lecture Capture System

Presenting the most advanced Smart Lecture Capture System, TrueCap. This advanced system makes it easy to teach the students with live and on demand videos. This enables the educators to easily record their video courses and share with students in or outside the campus. With TrueCap it becomes very easy to capture, switch, record, stream and deliver video content to a wider audience, whether live or on demand. locally or remotely. This system combines a Video Station, Pick-Up Microphone, Auto-Tracking Cameras for both teacher and the student and Online Director Platform to provide the most flexible and effective lecture capturing.

- One-Touch Recording and Broadcasting.
- 6 Screen Layout Modes for various scenarios.
- Intelligent Panorama & Close-Up switch function.
- Supports Instant Image Positioning.
- Built-in Disk Recording Protection Strategy.
- Smooth and stable live broadcast service.
- Wear-Resistant Capacitive Touch Technology.

CREDIBLE AND COHERENT CONCLUSIONS.

Integrated Student Response System

With TrueClick at hand, students are no more passive listeners as before. Instead, they can now be active participants. TrueClick enhances the interactive learning in class by giving a voice to each and every student. With TrueClick Student Response System, you can engage the students with activities like instant quiz. Set different questions, seek answers and create answer reports easily. Create an interactive learning environment where every student can participate actively and give real-time feedback. With TrueClick, teachers can track progress through instant feedback to determine whether the students need reviewing, re-teaching or to continue with the next lesson.

- Engage Every Student
- Track Progress Easily
- Assess Student Understanding
- Transmit Widely & Stably
- No Installation Required
- Full Featured Software
