About Us

At Warner Electronics India Pvt. Ltd. we empower our customers by delivering cutting-edge Electronic Manufacturing Services (EMS) from our newly constructed, state-of-the-art facility. Our capabilities extend across Electronic Surveillance, Commercial LCD Displays, and Conferencing Solutions – all designed to be user-friendly, future-ready, and scalable to meet evolving needs. With a strong belief that a company should operate as a community, we leverage advanced tools and streamlined processes to adapt technology quickly, efficiently, and effectively.

We pride ourselves on our commitment to quality and excellence. All our products and manufacturing processes are certified to meet the highest industry standards. These certifications underscore our dedication to delivering top-tier electronic manufacturing solutions while ensuring safety, reliability, and compliance with global regulations.

Certifications

The Strength

Our new facility is a state of the art manufacturing setup with in-house SMT Line, Auto CNC Machines, Advanced R&D Facilities, High Capacity Production Lines and a full fledged admin block. The new facility is one of the largest and the best Electronic Manufacturing Setups in Central India.

The manufacturing facility is situated in India's first Greenfield Industrial City, AURIC. The facility is located in close vicinity of the highly prestigious Delhi Mumbai Industrial Corridor.

The proposed Dry Port with Custom Clearance at Jalna is just 25 km. from the manufacturing facility. This also adds much ease for the logistics and supply chain.

"Unlock the power of limitless security with

TRUEVIEW CLOUD RECORDING

Store your CCTV footage securely on Indian servers.
Access it anytime, anywhere — with total peace of mind.

**Unlimited
Storage**

**Seamless
Playback**

**Secured
Recordings**

- Effortlessly store your valuable CCTV footage and cherished memories on the secure Trueview Cloud.
- Enjoy seamless, uninterrupted recording with instant and hassle-free access to your footage 24/7.
- Choose from a range of flexible storage and recording plans tailored to perfectly suit your specific needs.
- Say goodbye to the risk of data loss caused by unreliable SD card failures, camera damage, or theft.
- Experience guaranteed security for your personal data with robust, dedicated Indian servers.

Digital Signage Content Management Platform

Upload your content to the Digital Signage even without internet* in **3 WAYS**

Plug in a USB drive to update content directly on the screen. No internet required, Play seamless Content even after restart

Manage and update your signage on the go using our intuitive mobile application.

Control multiple screens remotely with real-time updates through our cloud based server.

Advanced Windows Software for Education

FASCINATING, FUNCTIONAL AND FLEXIBLE FEATURES

- Engage Students with Fun Activities
- Intuitive 4K and User Friendly UI
- Embedded Document Camera Function
- Page Roaming for Easy Presentation
- Abundant Resources & Subject Tools
- Intelligent Hand Gesture Recognition
- Customizable Content
- 14000+ Vector Graphics
- Writing Tools & Hand Gestures
- Built In Lecture & Lesson Creator

True BOARD

CAPACIOUS AND CLEVER CAPTURING

Presenting the most advanced Smart Lecture Capture System, TrueCap. This advanced system makes it easy to teach the students with live and on demand videos. This enables the educators to easily record their video courses and share with students in or outside the campus. With TrueCap it becomes very easy to capture, switch, record, stream and deliver video content to a wider audience, whether live or on demand, locally or remotely. This system combines a Video Station, Pick-Up Microphone, Auto-Tracking Cameras for both teacher and the student and Online Director Platform to provide the most flexible and effective lecture capturing.

- One-Touch Recording and Broadcasting.
- 6 Screen Layout Modes for various scenarios.
- Intelligent Panorama & Close-Up switch function.
- Supports Instant Image Positioning.
- Built-in Disk Recording Protection Strategy.
- Smooth and stable live broadcast service.
- Wear-Resistant Capacitive Touch Technology.

Student Response System

CREDIBLE AND COHERENT CONCLUSIONS.

With TrueClick at hand, students are no more passive listeners as before. Instead, they can now be active participants. TrueClick enhances the interactive learning in class by giving a voice to each and every student. With TrueClick Student Response System, you can engage the students with activities like instant quiz. Set different questions, seek answers and create answer reports easily. Create an interactive learning environment where every student can participate actively and give real-time feedback. With TrueClick, teachers can track progress through instant feedback to determine whether the students need reviewing, re-teaching or to continue with the next lesson.

- Engage Every Student
- Track Progress Easily
- Assess Student Understanding
- Transmit Widely & Stably
- No Installation Required
- Full Featured Software

Video Wall Monitors

VIBRANT, VIVID AND VERSATILE

Trueview LCD Video Wall Monitors are built with high quality industrial grade components for 24x7 usage. Best suitable for control rooms, airports, shopping malls, stadiums, and other large public venues these video wall monitors can be customized to suit any infrastructure, any business or even entertainment centric experiential requirements.

- Matrix from 1x2 up to 20x20
- Widely used in CCTV Control Room, Education & Research Center
- Used for Conferencing and Presentation
- Setup with Multiple Input & Output view of PC, Mobile, Video, CCTV etc at a time
- Available in 48" & 55" Sizes with 0.8 / 1.8 / 3.5 mm Bezel Size

Video Wall Controllers

| VIC Graphic Controllers & HDMI Matrix

| EVCM & IPVM Controllers

| Digital Signage Controllers

| Distributor & TV Wall Controllers
