

4G 2MP Dash Cam With Built-in GPS

FEATURES

• **2MP Full HD Recording**

Experience crystal-clear clarity on the road with our dashcam's 2MP recording, ensuring every detail is captured with stunning precision forehanced visibility and peace of mind.

• **Built-In GPS (Logging)**

Stay informed about every detail of your journey with built-in GPS logging. Track your route, speed, and location with precision, offering valuable insights for navigation and enhancing security.

• **Built In G-Sensor**

Triggered by sudden changes in acceleration, deceleration, or impacts. When the dash camera GPS detects a significant impact, it automatically saves the recorded footage in a secure folder, securing it from loop-recording.

• **Real-time Monitoring**

Allows the Camera to pair with your smart phone using 4G network. The dash cams offer live streaming capabilities, allowing you to monitor their vehicle in real-time from anywhere with the app"

• **Time Lapse Recording**

During playback, the captured frames are played back at a much faster speed than they were recorded. This creates a fast-forwarded video file, allowing you to see a long period condensed into a shorter video.

• **Built-in Microphone**

Enjoy added convenience and functionality with the built-in microphone, enabling clear audio recording to capture conversations, road noise, and other sounds for a comprehensive record of your journey.

• **Easy to Installation**

With a streamlined installation process and user-friendly design, mounting is hassle-free. Intuitive Camera GPS setups ensure quick and secure attachment, promoting accessibility and convenience for users.

Parking monitoring

The dash camera supports a parking monitoring function. When the vehicle is turned off and a significant vibration is detected, it captures video. In the event of a collision or accident, it automatically locks and saves the current recording to prevent important videos from being overwritten

• **Do-It-Yourself installation**

Installing the Dash Cemara on your vehicles is easy. You can do it yourself, following the instructions. The cables we supply are thin and flexible, and with a little patience you can easily route them under the window seals. In a few minutes your Do-It-Yourself installation will be finished, perfectly integrated into the original aesthetics of your vehicle.
